# National Archives at College Park

8601 Adelphi Road College Park, Maryland 20740-6001

Date : March 28, 1996  
Reply to : NSXA (Hull)  
Attn of :  
Subject : Documentation for Famine Irish data, 1846-1851  
To : File

On June 19 and August 10, 1989, the Center for Immigration Research of the Balch Institute at Temple University donated to the National Archives and Records Administration data and documentation relating to the Famine Irish Entry Project (NN3-CIR-93-003). The transfer consisted of one main data file known as the Famine Irish Passenger Record File. This file has data about individual Irish immigrants to the United States extracted from ship passenger lists in the Records of the U.S. Bureau of Customs (Record Group 36). The file has 604,596 records.

Also included with the transfer of data was one diskette with four files in WordPerfect 4.2. The files are:

README - a description of the various documentation components and record layout for the files (3 pages).

FIMHR - Famine Irish Manifest Header file - 3,226 records, one record per manifest; code list for ship manifests from which data was extracted for the passenger record file includes ship name, ship arrival date, code for ship port of embarkation, and number of corresponding passengers (60 pages).

FIPRT - Famine Irish Port Code List - 134 records, list of codes for ports of embarkation used in passenger record file (3 pages).

FICTY - Famine Irish Country Code List - 33 records, list of country codes used in passenger record file (1 page).

Documentation also includes an Occupation Code list (31 pages), sent to NARA in 1982, in paper form.

# National Archives

Washington, DC 20408

Linda Henry  
October 14, 1992  
3-CIR 93-003

## VALIDATION STATEMENT

When the National Archives acquired custody of this file, the accessioning procedures called for a manual comparison of the documentation to a printout of a portion of the records in each data set. This manual comparison is referred to as a "preliminary assessment" or "validation." This comparison involved two records from each dataset. This is a statement of the results of the preliminary assessment or validation.

title: Famine Irish Entry Project, 1846-1851

logical record length: 130

total number of datasets: 1

No discrepancies between the documentation and a sample dump of the data were noted during hand validation.
